It's Not Too Late to Stop Obamacare

This is Hugh Hewitt for Townhall.com.

Senate Democratic Majority Leader Harry Reid has announced that the super secret Obamacare bill he and a handful of hard-left Democrats have drafted with a few White House aides includes a *massive* takeover of American medicine under the title “public option.” Such a government option has been rejected by the Senate Finance Committee as radical and budget busting—but Reid has revived it because his re-election woes in Nevada mean he must play to the hard left base of the Democratic party which wants Canadian-style single payer health care. Now the massive cuts to Medicare proposed by every version of Obamacare will also include rationing and huge taxes—and a government takeover of medicine.

There is still time to call and e-mail the key Democratic senators who can stop this bill—including Michael Bennett of Colorado, Evan Bayh of Indiana and Blanche Lincoln of Arkansas—all of whom face the voters in 12 months. Call them via the Congressional switchboard at 202-224-3121 and tell them to *stop Obamacare*. Other contact information is available at my website, [HughHewitt.com](#).

I'm Hugh Hewitt.
